REGISTRATION OF FORLIGNERS BILL.

Statement of General Principles.

The Registration of Foreigners Act, 1939, of the Central Government received the assent of the Governor General on the 8th. April 1939 and was published at page 160 of Part IV of the Gazette of India dated the 15th April 1939 for general information.

In the majority of countries other than India, both within and outside the British Commonwealth, foreign tourists and residents are required to report their presence and movements to specified authorities and the Government of these countries are thereby possessed at all times of complete information as to the number and whereabouts of foreigners in their countries. The Government of India considered it desirable that they should also be at all times in possession of similar information, not only because it may be required for purposes of national defence, but also because in its absence it was found impossible to reply satisfactorily to questions asked in the Legislature and much difficulty and inconvenience had also been experienced in replying to enquiries as to the whereabouts of foreigners in India which were being received from their relatives. In the result the Registration of Foreigners Act was passed into law.

It was further felt that in order that all foreigners throughout India may be registered and thus complete information made available in regard to all foreigners wherever resident in India, Indian States should also apply to State territory Acts similar to the British Indian Act.

"Any rules made, anything done and any action taken in exercise of any power conferred by or under the Registration of Foreigners (Emergency) Act, 1939, shall be deemed to have been made, done or taken in exercise of powers conferred by or under this Act as if this Act had commenced on the 30th day of June 1939.

Registration of Foreigners (prolongation) Bill.

On the 30th June 1939, gracious sanction of His Highness was accorded to the promulgation of the Registration of Foreigners Act as an Emergency Act under Section 12 of the Legislative Council Act, and to bring, in due course, a Bill before the Representative Assembly and the Legislative Council for being placed permanently on the Statute Book. The Emergency Act will, by efflux of time, become spent by the end of December 1939. The bill which will be introduced in the next session of the Legislative Council will not become law before the end of January 1940, the Council session having been fixed to commence on the 22nd January 1940. There will therefore be an interval of time when neither the Emergency Act nor the permanent measure will be in force in the State.

In order to avoid such a circumstance, it is proposed to issue an Act under section 16 of the Legislative Council Act, 1923, extending the duration of the Emergency Act up to the end of January 1940 when the permanent measure may be expected to become law.

The Dewan and the Second Member of Council have agreed to this proposal. The gracious sanction of His Highness is solicited for the promulgation of the Registration of Foreigners (Prolongation) Bill into law, under section 16 of the Legislative Council Act.

REGISTRATION OF FOREIGNERS BILL.

Statement of General Principles.

For the possession at all times of complete information as to the number and whereabouts of foreigners in India, it was found by the Government of India that the existing provisions of law were inadequate. Such information was considered necessary for the purposes of national defence as well as for replying to enquiries regarding such foreigners received from time to time from their relatives. The Registration of Foreigners Act was accordingly passed early this year.

It was further considered desirable that in order that complete information might be available in regard to all foreigners wherever present or resident in India, Indian States should also apply to the State Territory Acts similar to the British Indian measure.

As the matter was urgent an emergency Act was passed in June. This Act expires in December 1939, and it is considered desirable to have a permanent measure on the Statute Book.

The Bill is a short one, its provisions being confined to the creation of the legal machinery necessary for maintaining a register of foreigners who are at any time present in Mysore and keeping that register up-to-date.

DASARA SESSION—OCTOBER 1939.

STATEMENT OF GOVERNMENT BUSINESS TO BE PLACED BEFORE THE REPRESENTATIVE ASSEMBLY.

1. Statement of the General Principles of the Bill for the Registration of Foreigners.

For the possession at all times of complete information as to the number and whereabouts of foreigners in India, it was found by the Government of India that the existing provisions of law were inadequate. Such information was considered necessary for the purposes of national defence as well as for replying to enquiries regarding such foreigners received from time to time from their relatives. The Registration of Foreigners Act was, accordingly, passed early this year.

It was further considered desirable that, in order that complete information might be available in regard to all foreigners wherever present or resident in India, Indian States should also apply to the State Territory Acts similar to the British Indian measure.

As the matter was urgent, an emergency Act was passed in June. This Act expires in December 1939, and it is considered desirable to have a permanent measure on the Statute Book.

The Bill is a short one, its provisions being confined to the creation of the legal machinery necessary for maintaining a register of foreigners who are at any time present in Mysore and keeping that register up-to-date.

2. Statement of the General Principles of the Bill further to amend the Mysore District Boards Act, 1926.

The financial condition of most of the District Boards is not satisfactory and the Committee appointed by Government to examine their finances has recommended that some of the District Boards should levy a special cess under Section 69 of the Mysore District Boards Act. As the District Boards are not agreeable to impose the levy and there is no other source by which they can improve their finances, it is proposed that Government should take power to require them to impose the levy by including in the District Boards Act a Section similar to Section 86 of the Mysore City Municipalities Act.

3. Statement of the General Principles of the Bill further to amend the Mysore Town Municipalities Act, 1933.

Section 85 of the Mysore Town Municipalities Act, 1933, is somewhat ambiguous and appears to admit of the interpretation that possession of an article liable to octroi is punishable if octroi is not paid on it, whether or not the article is one for the sale of which a licence is required to be obtained.

The object of this section is to punish as offences—

(*a*) the selling without a licence, and

(*b*) the possession without payment of octroi,

of articles which are liable to octroi and for the sale of which a licence is required to be obtained.

It is, therefore, proposed to amend the section to make the meaning clear.

4. Statement of the General Principles of the Bill further to amend the Mysore City Municipalities Act, 1933.

The existing wording of Section 90 of the Mysore City Municipalities Act, 1933, appears to be ambiguous and to admit of the interpretation that the possession of an article liable to octroi on which octroi has not been paid is punishable even though a licence may not be required for its sale.

The object of the section is to punish as offences the selling without a licence of any article which is liable to octroi and for the sale of which a licence is required to be obtained, and also the possession without payment of octroi of any article which is liable to octroi and for the sale of which a licence is required.

In order to make this section clear, it is proposed to amend the section.

ಮೈಸೂರು ಸಂಸ್ಥಾನದಲ್ಲಿರತಕ್ಕ ಅನೇಕ ಡಿಸ್ಟ್ರಿಕ್ಟ್ ಬೋರ್ಡುಗಳ ಹಣಕಾಸಿನ ಪರಿಸ್ಥಿತಿಯು ಸಮರ್ಪಕವಾಗಿಲ್ಲ. ಡಿಸ್ಟ್ರಿಕ್ಟ್ ಬೋರ್ಡುಗಳ ಆಯವ್ಯಯಗಳ ಸ್ಥಿತಿಗೆ ಸಂಬಂಧಪಟ್ಟ ವಿಚಾರಗಳನ್ನು ಪರಿಶೀಲಿಸುವುದಕ್ಕಾಗಿ ಸರ್ಕಾರದವರು ಈಗ್ಗೆ ಕೆಲವು ಕಾಲದ ಹಿಂದೆ ಒಂದು ಸಮಿತಿಯನ್ನು ನೇಮಕ ಮಾಡಿದ್ದರಷ್ಟೆ. ಮೈಸೂರು ಸಂಸ್ಥಾನದ ಡಿಸ್ಟ್ರಿಕ್ಟ್ ಬೋರ್ಡುಗಳ ಆಕ್ಟಿನ 69ನೆಯ ಪ್ರಕರಣದ ಮೇರೆಗೆ ಕೆಲವು ಡಿಸ್ಟ್ರಿಕ್ಟ್ ಬೋರ್ಡುಗಳವರು ಒಂದು ವಿಶೇಷ ರೀತಿಯ ಸೆಸ್ಸನ್ನು ವಿಧಾಯಕ ಮಾಡಬೇಕೆಂಬುದಾಗಿ ಆ ಸಮಿತಿಯವರು ಸಲಹೆ ಮಾಡಿದ್ದಾರೆ. ಡಿಸ್ಟ್ರಿಕ್ಟ್ ಬೋರ್ಡುಗಳವರು ಹಾಗೆ ಸೆಸ್ಸನ್ನು ವಿಧಿಸುವುದಕ್ಕೆ ಸಮ್ಮತಿಸಿಲ್ಲ. ಆದರೆ ಅವರ ವರಮಾನವನ್ನು ಹೆಚ್ಚಿಸುವುದಕ್ಕೆ ಬೇರೆ ಯಾವ ಸಾಧನೋಪಾಯವೂ ಇಲ್ಲ. ಆದುದರಿಂದ, ಡಿಸ್ಟ್ರಿಕ್ಟ್ ಬೋರ್ಡುಗಳವರು ಅಂಥ ವಿಶೇಷ ರೀತಿಯ ಸೆಸ್ಸನ್ನು ವಿಧಾಯಕ ಮಾಡಬೇಕೆಂದು ಅಪ್ಪಣೆ ಮಾಡುವುದಕ್ಕೆ ಸರ್ಕಾರದವರಿಗೆ ಅಧಿಕಾರವಿರು

ವಂತೆ ಮಾಡಬೇಕೆಂದು ಉದ್ದೇಶಿಸಲಾಗಿದೆ. ಇದಕ್ಕಾಗಿ, ಮೈಸೂರು ಸಂಸ್ಥಾನದ ಸಿಟಿ ಮುನಿಸಿಪಾಲಿಟಿಗಳ ಆಕ್ಟಿನ 86ನೆಯ ಪ್ರಕರಣದ ಮಾದರಿಯಲ್ಲಿ ಒಂದು ಪ್ರಕರಣವನ್ನು ಡಿಸ್ಟ್ರಿಕ್ಟು ಬೋರ್ಡಗಳ ಆಕ್ಟಿನಲ್ಲಿಯೂ ಸೇರಿಸಬೇಕೆಂಬ ಉದ್ದೇಶದಿಂದ ಈ ಮಸೂದಾಕಾನೂನು ರಚಿತವಾಗಿದೆ.

3. 1933ನೆಯ ಇಸವಿಯ ಮೈಸೂರು ಸಂಸ್ಥಾನದ ಟೌನ್ ಮುನಿಸಿಪಾಲಿಟಿಗಳ ಆಕ್ಟನ್ನು ಮತ್ತಷ್ಟು ತಿದ್ದುಪಡಿ ಮಾಡುವುದಕ್ಕಾಗಿ ರಚಿತವಾದ ಮಸೂದಾ ಕಾನೂನಿನ ಸಾಮಾನ್ಯ ನಿಯಮಗಳ ವಿವರ.

1933ನೆಯ ಇಸವಿಯ ಮೈಸೂರು ಸಂಸ್ಥಾನದ ಟೌನ್ ಮುನಿಸಿಪಾಲಿಟಿಗಳ ಆಕ್ಟಿನ 85ನೆಯ ಪ್ರಕರಣವು ಈಗಿರುವ ರೀತಿಯಲ್ಲಿ ಸ್ವಲ್ಪಮಟ್ಟಿಗೆ ಅದರ ಅರ್ಥವು ಸಂದೇಹಾಸ್ಪದವಾಗಿದ್ದೆ. ಆಕ್ಟ್ರಾಯಿ ತೆರಿಗೆಯನ್ನು ಕೊಡಬೇಕಾದ ಒಂದು ಪದಾರ್ಥವನ್ನು ಮಾರಾಟಮಾಡುವುದಕ್ಕೆ ಲೈಸೆನ್ಸನ್ನು ತೆಗೆದುಕೊಳ್ಳಬೇಕೆಂದು ವಿಧಾಯಕವಾಗಿರಲಿ ಅಥವಾ ಇಲ್ಲದಿರಲಿ, ಆ ಪದಾರ್ಥದ ಮೇಲೆ ಆಕ್ಟ್ರಾಯಿ ತೆರಿಗೆಯನ್ನು ಪಾವತಿಮಾಡದಿದ್ದಲ್ಲಿ, ಅದನ್ನು ವಶದಲ್ಲಿಟ್ಟುಕೊಂಡಿರುವವರು ಶಿಕ್ಷೆಗೆ ಗುರಿಯಾಗತಕ್ಕುದೆಂಬುದಾಗಿ ಆ ಪ್ರಕರಣದಲ್ಲಿ ಈಗಿರುವ ಪದಗಳಿಗೆ ಅರ್ಥ ಮಾಡಲು ಈಗ ಅವಕಾಶವಿದೆ.

ಈ ಪ್ರಕರಣದ ಉದ್ದೇಶವು, ಯಾವ ಪದಾರ್ಥದ ವಿಷಯದಲ್ಲಿ ಆಕ್ಟ್ರಾಯಿ ತೆರಿಗೆಯನ್ನು ಕೊಡಬೇಕಾಗಿದ್ದು ಆ ಪದಾರ್ಥವನ್ನು ಮಾರಾಟಮಾಡುವುದಕ್ಕೆ ಲೈಸೆನ್ಸನ್ನು ತೆಗೆದುಕೊಳ್ಳಬೇಕೆಂಬುದಾಗಿ ವಿಧಾಯಕವಾಗಿದೆಯೋ ಅಂಥ ಪದಾರ್ಥವನ್ನು,

(a) ಲೈಸೆನ್ಸಿಲ್ಲದೆ ಯಾರಾದರೂ ಮಾರಾಟಮಾಡಿದರೆ, ಮತ್ತು

(b) ಆಕ್ಟ್ರಾಯಿ ತೆರಿಗೆಯನ್ನು ಪಾವತಿಮಾಡದೆ ವಶದಲ್ಲಿಟ್ಟುಕೊಂಡಿದ್ದರೆ, ಅಂಥವರನ್ನು ಶಿಕ್ಷೆಗೆ ಗುರಿಪಡಿಸಬೇಕೆಂಬುದಾಗಿದೆ.

ಆದುದರಿಂದ ಆ ಅರ್ಥವನ್ನು ಸ್ಪಷ್ಟಪಡಿಸುವುದಕ್ಕಾಗಿ ಮೈಸೂರು ಸಂಸ್ಥಾನದ ಟೌನ್ ಮುನಿಸಿಪಾಲಿಟಿಗಳ ಆಕ್ಟಿನ 85ನೆಯ ಪ್ರಕರಣವನ್ನು ತಿದ್ದುಪಡಿಮಾಡಬೇಕೆಂದು ಉದ್ದೇಶಿಸಲಾಗಿದೆ. ಅದಕ್ಕನುಸಾರವಾಗಿ ಈ ಮಸೂದಾ ಕಾನೂನನ್ನು ರಚಿಸಲಾಗಿದೆ.

4. 1933ನೆಯ ಇಸವಿಯ ಮೈಸೂರು ಸಂಸ್ಥಾನದ ಸಿಟಿ ಮುನಿಸಿಪಾಲಿಟಿಗಳ ಆಕ್ಟನ್ನು ಮತ್ತಷ್ಟು ತಿದ್ದುಪಡಿ ಮಾಡುವುದಕ್ಕಾಗಿ ರಚಿತವಾದ ಮಸೂದಾ ಕಾನೂನಿನ ಸಾಮಾನ್ಯ ನಿಯಮಗಳ ವಿವರ.

1933ನೆಯ ಇಸವಿಯ ಮೈಸೂರು ಸಂಸ್ಥಾನದ ಸಿಟಿ ಮುನಿಸಿಪಾಲಿಟಿಗಳ ಆಕ್ಟಿನ 90ನೆಯ ಪ್ರಕರಣವು ಈಗಿರುವ ರೀತಿಯಲ್ಲಿ, ಸ್ವಲ್ಪಮಟ್ಟಿಗೆ ಅದರ ಅರ್ಥವು ಸಂದೇಹಾಸ್ಪದವಾಗಿದೆ. ಆಕ್ಟ್ರಾಯಿ ತೆರಿಗೆಯನ್ನು ಕೊಡಬೇಕಾದ ಒಂದು ಪದಾರ್ಥವನ್ನು ಮಾರಾಟಮಾಡುವುದಕ್ಕೆ ಲೈಸೆನ್ಸನ್ನು ತೆಗೆದುಕೊಳ್ಳಬೇಕೆಂದು ವಿಧಾಯಕವಾಗಿಲ್ಲದಿದ್ದರೂ ಸಹ, ಅದರ ಸಂಬಂಧದಲ್ಲಿ ಆಕ್ಟ್ರಾಯಿ ತೆರಿಗೆಯನ್ನು ಪಾವತಿ ಮಾಡಿಲ್ಲದಿದ್ದಲ್ಲಿ, ಅದನ್ನು ವಶದಲ್ಲಿಟ್ಟುಕೊಂಡಿರುವವನು ಶಿಕ್ಷೆಗೆ ಗುರಿಮಾಡಲ್ಪಡತಕ್ಕುದೆಂದು ಆ ಪ್ರಕರಣದಲ್ಲಿ ಈಗಿರುವ ಪದಗಳಿಗೆ ಅರ್ಥ ಮಾಡಲು ಈಗ ಅವಕಾಶವಿದೆ.

ಈ ಪ್ರಕರಣದ ಉದ್ದೇಶವು ಎರಡು ಬಗೆಯ ಅಪರಾಧಗಳನ್ನು ಶಿಕ್ಷೆಗೆ ಗುರಿಪಡಿಸಬೇಕೆಂಬುದಾಗಿದೆ. ಆಕ್ಟ್ರಾಯಿ ತೆರಿಗೆಯನ್ನು ಕೊಡಬೇಕಾದ ಯಾವ ಪದಾರ್ಥವನ್ನು ಮಾರಾಟ ಮಾಡುವುದಕ್ಕೆ ಲೈಸೆನ್ಸನ್ನು ತೆಗೆದುಕೊಳ್ಳಬೇಕೆಂದು ವಿಧಾಯಕವಾಗಿದೆಯೋ ಅಂಥ ಪದಾರ್ಥವನ್ನು ಲೈಸೆನ್ಸಿಲ್ಲದೆ ಮಾರಾಟಮಾಡುವುದು ಒಂದು ಬಗೆಯ ಅಪರಾಧ ; ಆಕ್ಟ್ರಾಯಿ ತೆರಿಗೆ ಕೊಡಬೇಕಾದ ಯಾವ ಪದಾರ್ಥವನ್ನು ಮಾರಾಟಮಾಡುವುದಕ್ಕೆ ಲೈಸೆನ್ಸನ್ನು ತೆಗೆದುಕೊಳ್ಳಬೇಕೆಂದು ವಿಧಾಯಕವಾಗಿದೆಯೋ ಅಂಥ ಪದಾರ್ಥವನ್ನು, ಅದರಮೇಲೆ ಆಕ್ಟ್ರಾಯಿ ತೆರಿಗೆಯನ್ನು ಪಾವತಿ ಮಾಡದೆಯೇ ವಶದಲ್ಲಿಟ್ಟುಕೊಂಡಿರುವುದು ಇನ್ನೊಂದು ಬಗೆಯ ಅಪರಾಧ. ಈ ಎರಡು ಬಗೆಯ ಅಪರಾಧಗಳಿಗಾಗಿ ದಂಡನೆಯಾಗಬೇಕೆಂಬುದೇ ಮೇಲೆ ಸಮೂಹಿಸಿರುವ ಆ 90ನೆಯ ಪ್ರಕರಣದ ಉದ್ದೇಶ.

ಈ ಅರ್ಥವು ಸ್ಪಷ್ಟವಾಗಿ ತಿಳಿದುಬರುವಂತೆ ಮಾಡುವುದಕ್ಕಾಗಿ ಮೈಸೂರು ಸಂಸ್ಥಾನದ ಸಿಟಿ ಮುನಿಸಿಪಾಲಿಟಿಗಳ ಆಕ್ಟಿನ 90ನೆಯ ಪ್ರಕರಣವನ್ನು ತಿದ್ದುಪಡಿ ಮಾಡಬೇಕೆಂದು ಉದ್ದೇಶಿಸಲಾಗಿದೆ. ಅದಕ್ಕನುಸಾರವಾಗಿ ಈ ಮಸೂದಾ ಕಾನೂನನ್ನು ರಚಿಸಲಾಗಿದೆ.

Statement of Objects and Reasons.

For the possession at all times of complete information as to the number and whereabouts of foreigners in India, it was found by the Government of India that the existing provisions of law were inadequate. Such information was considered necessary for the purposes of

national defence as well as for replying to enquiries regarding such foreigners received from time to time from their relatives. The Registration of Foreigners Act was, accordingly, passed early this year.

It was further considered desirable that, in order that complete information might be available in regard to all foreigners wherever present or resident in India, Indian States should also apply to the State territory Acts similar to the British Indian measure.

As the matter was urgent, an emergency Act was passed in June. This Act expires in December 1939, and it is considered desirable to have a permanent measure on the Statute Book.

The Bill is a short one, its provisions being confined to the creation of the legal machinery necessary for maintaining a register of foreigners who are at any time present in Mysore and keeping that register up-to-date.

Power to exempt from application of Act.

6. The Central Government may, by order, declare that any or all of the provisions of the rules made under this Act shall not apply, or shall apply only with such modifications or subject to such conditions as may be specified in the said order, to or in relation to any individual foreigner or any class or description of foreigner.

7. No suit, prosecution or other legal proceeding shall lie against any person for anything which is in good faith done or intended to be done under this Act.

Application of other laws not barred.

8. The provisions of this Act shall be in addition to, and not in derogation of, the provisions of the Foreigners Act, 1864 and any other law for the time being in force. III of 1864

STATEMENT OF OBJECTS AND REASONS.

Apart from the fact that from the Census Report of 1931 it is known that in that year there were in India some 450,000 persons who stated that they had been born outside His Majesty's dominions, there is no information as to the number, nationality and whereabouts of foreigners in India, nor, in the absence of any statutory obligation on foreigners to report their presence and movements, is it possible to obtain such information. The only law which provides for the registration of foreigners as a class is that which is contained in sections 6 to 9 of the Foreigners Act (III of 1864). Those provisions, however, are intended for use in emergency only, and, apart from this, even if they were brought into force, they would apply only to foreigners arriving, and not to those already resident, in British India. In the majority of other countries, both within and outside the British Commonwealth, foreign visitors and residents are required to report their presence and movements to specified authorities, and the Governments of those countries are thereby possessed at all times of complete information as to the number and whereabouts of foreigners in their countries. It is desirable that the Government of India should also be at all times in possession of similar information, not only because it may be required for the purpose of national defence but also because, in its absence, it has from time to time been impossible to reply satisfactorily to questions asked in the Legislature and much difficulty and inconvenience has also been experienced in replying to enquiries as to the whereabouts of foreigners in India which have been received from their relatives.

The Bill which is based upon provisions contained in the Foreigners Act, 1864, the British Aliens Restriction Act, 1914 and the British Aliens Order of 1920 is intended to provide the statutory powers necessary for the collection of such information.

R. M. MAXWELL.

NEW DELHI ;

The 23rd February, 1939

N CLAUSES.

Clause 2.—The exclusion of consular and diplomatic officers is based on usage which is recognised in the proviso to section 5 of the Foreigners Act of 1864 and in Article 22 of the British Aliens Order, 1920.

Clause 3 (i).—Clauses (a), (b) and (c) are required to provide for the preparation of a register and for its subsequent maintenance. Analogies exist in clause (*f*) of sub-section (*1*) of section 1 of the British Aliens Restriction Act, 1914, in Article 6 of the British Aliens Order of 1919, and in part, in sections 6 and 7 of the Foreigners Act of 1864.

(*ii*) *Clause* (*d*).—Except at the time of entry into British India there is at present no power to demand of any person the production of his passport or proof of identity. This clause which is analogous to Article 6 (*1*) (*a*), (*b*) and (*e*) of the British Aliens Order, 1920, is intended to confer this power.

(*iii*) *Clause* (*e*).—This provision is based upon Article 7 of the British Aliens Order of 1920 and is primarily intended for use in the case of hotels.

(*iv*) *Clause* (*f*).—This clause has affinity with sections 20 to 22 of the Foreigners Act of 1864, clause (*h*) of sub-section (*1*) of section 1 of the British Aliens Restriction Act, 1914 and Article 5 of the British Aliens Order of 1920. The co-operation of shipping companies will greatly facilitate the administration of the Act to the advantage not only of the authorities but also of foreigners themselves.

Clause 4.—Is based upon section 2 of the Foreigners Act, 1864, and subsection (*4*) of section 1 of the British Aliens Restriction Act of 1914.

Clause 6.—While clause 2 provides for certain exclusions it is proposed to exempt young persons and such other persons as should not be required to register by orders of exemption. Analogies exist in section 25 of the Foreigners Act, 1864 and Article 14 of the British Aliens Order of 1920.

OFFICE OF THE PRIVATE SECRETARY TO THE VICEROY.

NOTIFICATIONS.

New Delhi, the 5th April 1939.

No. 49-H.—His Excellency the Viceroy has been pleased to confer the Indian Police Medal on the following officer

Name of officer and rank.	Statement of services for which the decoration has been conferred.
Ram Agya Singh, Constable No. 360, Purnea District.	Constable Ram Agya Singh showed considerable pluck and initiative when he led a party of villagers and rural police to resist an attack by a gang of dacoits on village Motihara, Police Station Kishanganj, in the district of Purnea, on the night of the 28th January 1939. The village was awakened at midnight by the sound of firing. The Constable with 5 chaukidars and a daffadar who were patrolling the village at the time immediately formed a party with some villagers and rushed towards the sound of the firing. Although only armed with *lathis* and fully aware that the dacoits were armed with a gun, they did not hesitate to challenge the dacoits and launched a vigorous attack upon them. The dacoit who had the gun was at first unable to use it for fear of shooting his own companions, but later, when the dacoits were driven away from the house they were attacking and the fight was resumed in a *gachi* near by, one of the villagers, who had attempted to gain possession of the gun, was shot and killed. This, however, did not deter the villagers who continued the attack under the encouragement and leadership of the Constable. The Constable was also fired at but fortunately not hit; 2 chaukidars, however, received slight gun-shot wounds. The courage and leadership shown by the Constable, who all along directed operations and rallied the villagers, was chiefly responsible for their stout resistance and resulted in the dacoits, some of whom were injured, finally beating a hasty retreat.

This award is made for gallantry under regulation *d* (*i*) of the regulations governing the grant of the Indian Police Medal and consequently carries with it the special allowance admissible to officers of and below the rank of Inspector of Police.

No. 50-H.—His Excellency the Viceroy has been pleased to confer the Indian Police Medal on the following officer:—

Name of officer and rank	Statement of services for which the decoration has been conferred.
	BIHAR.
Ram Chander Singh, Constable No. 475, Muzaffarpur District.	On the 11th July 1938, Constable Ram Chander Singh, with considerable difficulty and at the risk of his own life, saved an old man of about 70 years of age, named Madho Sahani, from drowning in the Burh Gandak river. Madho Sahani, who was bathing in the river, was carried away by the very strong current flowing at the time due to the river being in high flood. His limited strength was soon exhausted and it was apparent that he was in imminent danger of drowning. On an alarm being raised by a number of persons on the bank the Constable, who was near by and heard the shouting, immediately came to the rescue and, fully dressed, plunged into the river. Besides having a strong current to contend with the Constable was further hampered by the old man having seized his arm which he was only able to release with considerable difficulty. However, he finally secured the man and after a prolonged struggle against the current succeeded in bringing him to the shore, the old man having in the meantime become unconscious. The action and courage of this Constable is worthy of the highest praise.

This award is made for gallantry under regulation *d* (*i*) of the regulations governing the grant of the Indian Police Medal and consequently carries with it the special allowance admissible to officers of and below the rank of Inspector of Police.

No. 51-H.—His Excellency the Viceroy has been pleased to confer the Indian Police Medal on the following officer:—

Name of officer and rank.	Statement of services for which the decoration has been conferred.
	BIHAR.
Masroof Khan, Constable No. 478, Darbhanga District.	On the 6th May 1937 Constable Masroof Khan, after executing a distress warrant in Village Sibaisingpur in Mohiuddinagar Police Station, Darbhanga district, was proceeding to the adjacent village of Patori for patrol duty when he was attacked by 9 persons, against 3 of whom he had executed the distress warrant. Two chaukidars, who were with the Constable at the time of the attack, immediately fled. Though heavily outnumbered and entirely alone the Constable stood his ground and with his *lathi* overcame two of his assailants before he was beaten to the ground badly injured. His assailants were armed with deadly weapons and the Constable, among other less serious injuries, suffered a spear wound in the chest and a fractured leg. The culprits were subsequently put on trial and convicted to various sentences. The Constable, by his courage and determined resistance, displayed considerable gallantry and devotion to duty.

This award is made for gallantry under regulation *d* (*i*) of the regulations governing the grant of the Indian Police Medal and consequently carries with it the special allowance admissible to officers of and below the rank of Inspector of Police.

The 6th April 1939

Name of officer and rank.	Statement of services for which the decoration has been conferred.
	BENGAL.

In August 1938 the rivers Padma and Mahananda caused severe floods in the jurisdiction of Nawabganj Police Station in the district of Malda. This officer was sent out on patrol to render help to the distressed people in the flooded areas. He displayed conspicuous gallantry and devotion to duty and during the course of 8 days effected the rescue of nearly 300 people.

This award is made for gallantry under regulation d (*i*) of the regulations governing the grant of the Indian Police Medal and consequently carries with it the special allowance admissible to officers of and below the rank of Inspector of Police.

No. 54-H.—His Excellency the Viceroy has been pleased to confer the Indian Police Medal on the following officer:—

Name of officer and rank.	Statement of services for which the decoration has been conferred.

But before the invention is stated generally, one matter needs consideration. It is a well-known proposition that to every stray-field transformer corresponds an equivalent close-wound transformer with choke, and *vice versa*. But it is usually affirmed when it is assumed that there is no magnetic saturation. The question therefore arises whether it is still true when there is magnetic saturation. It is not necessary to the present invention that the proposition should be either affirmed or denied in this case. We affirm only that there are close-wound transformers with chokes which resemble stray-field transformers of the aforesaid kind in respect of the property discussed, namely, that V_c has a maximum for a value C_m of the condenser load related to the characteristics of the transformer in the manner aforesaid.

In general, we prefer to use stray-field transformers rather than close-wound transformers with chokes ; and much of the description will refer to the former alone. But it is to be understood that it will generally be possible to find a close-wound transformer with choke having the desired properties ; and, if so, it may be substituted for the stray-field transformer."

" No advantages are known of giving to any of the impedances Z_n in Figure 6 a value substantially different from zero unless the value is such as to mitigate surges. But it is usually possible to give to one or more of them a value substantially different from zero such that, while the element does not do any good in mitigating surges, it does little or no harm in respect of the advantages to which the invention is directed. It must be understood that it is within the invention to give to the impedances Z_n any values, so long as the presence of the elements leaves the combination better in respect of the objects of the invention than it could be if the impedances and also the condenser C were all substantially zero.

We are aware that combinations have been described previously that are in formal accordance with the circuit diagram of the aforesaid Figure 6. In most of them the discharge device D is not a H. P. M. V. lamp, so that the problem to which the invention is directed does not arise. But in the combination described in British Patent Specification No. 435,310 the deviceisaH. P. M. V. lamp. However, we are not aware that there is to be found in this specification (or indeed in any other said description) any suggestion that the " loose " transformer may be of the kind aforesaid, characteristic of the present invention, or any suggestion of any method of obtaining any of the aforesaid three advantages."

Page 6, *delete* Claim 1 and *substitute* the following as Claim 1 :—

A combination of the type specified (that is to say), one comprising a H. P. M. V. lamp, having main electrodes heated by the discharge only, and a loose transformer (as hereinbefore defined) whose primary is adapted to be connected to A. C. mains of assigned voltage and whose secondary is adapted, when the primary is so connected, to feed the said H. P. M. V. lamp so that it dissipates and assigned power, wherein the said loose transformer is of the kind aforesaid in which, when the only load is a condenser, V_c has a maximum when the capacity of this condenser has a value C_m related to the characteristics of the transformer in the manner aforesaid, and wherein a condenser whose capacity is approximately C_m is connected across the secondary winding of the transformer in parallel with the H. P. M. V. device."

Page 6, *delete* lines 46-50 (Claim 4) ; and *insert* " adjusted so that the circuit is better, in respect of the aforesaid advantages than it could be if the capacity C and the said impedance Z_n were all substantially zero."

Page 6, *delete* lines 51-53 (Claim 5) ; and *insert* the following as Claims 5 and 6 :—

" 5. A combination according to Claim 4 wherein the said impedance(s) Z_n is (are) adjusted so that the maximum current during the starting period is substantially less than if it (they) was (were) zero (while C was still nearly C_m) and so that the power (if any) consumed in the said impedances in full operation is less than 10 per cent. of that consumed in the device D.

6. A combination according to Claim 1, 2, 4 or 5, wherein the said loose transformer is a stray-field transformer."

1. There shall be a warehouse Inspector in executive charge of the Bonded Warehouse, under the control of the Superintendent of Excise in Baluchistan and he shall be responsible for the general management of the warehouse, and for the carrying out of all orders issued by proper authority from time to time.

2. The hours of attendance of the Warehouse Inspector and the staff shall be prescribed by the Superintendent of Excise, the convenience of the Warehouse Contractor and vendors being considered as far as possible in fixing the hours.

3. No work shall be carried on Sundays and public holidays notified as such by the Local Government under the Negotiable Instruments Act, except with the written permission of the Superintendent of Excise. When it is necessary that the work should be carried on in the warehouse on Sundays or public holidays, and when the permission of the Superintendent of Excise cannot be obtained, the Warehouse Inspector may grant written permission, on the written requisition of the Warehouse Contractor taking every precaution in the interest of Government by ordering the attendance of the necessary supervising staff.

4. The Warehouse Inspector shall be present on duty within the Warehouse when any sort of operation is going on, and shall be responsible that no spirit is removed from the Warehouse, except under his own authority and in his presence. He shall be careful to see that no spirit is consumed on the Warehouse premises.

5. All spirits received at the Warehouse on any working day shall immediately be gauged, proved and reduced to the prescribed strength in the strong room. When the spirit is received in the Warehouse from any Distillery, the Warehouse Inspector shall carefully examine the state of the casks and seals calling the attention of the contractor or his agent to any apparent defects. He shall then make necessary entries in the prescribed register (B. W. L.-1).

6. All colouring ingredients intended to be used in the spiced spirit shall be first brought to the Warehouse Inspector on their arrival at

the Warehouse, for his inspection, who will, after his approval of the same, enter them into the register in form B. W. L. 8.

7. The minimum quantity of spirit, that may be passed out of the Warehouse at one time under permit issued to the wholesale or retail vendors is four Imperial gallons: Permits for quantity representing fraction of a gallon shall not be issued.

8. On each vat or cask in the strong room shall be painted the serial number of such vat or cask, its full capacity and the description of spirit in it. The date of testing the capacity should also be noted.

9. (*a*) There shall be two locks to each door of the strong room (the keys of which shall not be interchangeable); the key of one being kept by the Warehouse Inspector, and the key of the other by the Warehouse Contractor, or his authorised agent.

(*b*) The strong room, inclusive of bottling room shall always be kept securely locked, except when it is necessary to open it for the purpose of receiving, storing, bottling and issuing spirit and no combustible substance other than spirit shall be taken into this room which must not be entered with an open light.

(*c*) The duplicate keys of all the locks in use in the Warehouse shall be deposited for safe custody in the local Treasury.

10. The Warehouse Inspector shall be responsible for all accounts and for keeping the Warehouse books and registers written up to date.

11. (*a*) Before spirits can be removed from the Warehouse, the person requiring it shall present to the Warehouse Inspector the prescribed receipt for the amount of duty paid on the quantity of spirit required, and shall arrange for the purchase of the spirit with the contractor. The Warehouse Inspector, after satisfying himself that the duty paid fully covers the quantity of spirit to be removed and that the consent of the Warehouse Contractor has been obtained to its issue, will allow the spirit to be issued under a permit granted by him in the prescribed form (B. W. L. 6). The pass will be issued in triplicate, one copy being kept in the Warehouse, the second copy issued to the licensee along with the consignment and the third for despatch to the Excise Inspector of the district in which the purchasing licensee's shop is situated. Treasury receipts for duty credited to Government shall be cancelled by the Warehouse Inspector immediately after issue of the spirit.

(*b*) All bottling operations will be carried out within the Warehouse premises only and no spirit shall be issued except in sealed bottles.

12. The country spirit shall be bottled in accordance with the chronological order of stock received.

13. At the close of a day's work, the Warehouse Inspector will secure the strong room and the other rooms connected therewith where spirit is stored, under locks, the keys of which shall remain in his personal possession and the Warehouse will then be closed under his orders. He will also ensure that the Warehouse is properly locked for the night. No admittance to the Warehouse is to be permitted except on business. Visitors may, however, be admitted to the premises at the discretion of the Warehouse Inspector.

14. The Warehouse contractor shall be bound to keep at hand a sufficient number of coolies and stock of bottling material etc., for bottling of spirit in the Warehouse and other operations. LICENSE FOR THE WHOLESALE SUPPLY OF COUNTRY SPIRIT UNDER THE CONTRACT SUPPLY SYSTEM IN BALUCHISTAN.

License is hereby given to hereinafter called the contractor under and subject to the provisions of the Excise Regulation, I of 1915, for the exclusive wholesale supply of country spirit for sale at the Warehouse at Quetta for a term of three years from April 1, 1939 to March 31, 1942.

2. The issue of the said spirit from the said warehouse will be at such strength only as specified in the schedule and at prices mentioned in the schedule, provided that Government reserve to themselves the right to raise these prices if conditions render a revision of rates necessary.

3. The spirit may be imported from the Amritsar Distillery in the Punjab or from any other distillery in British India as sanctioned by the Excise Commissioner in Baluchistan from time to time. The spirit supplied shall be of good quality. It shall be subject to periodical analysis and the contractor shall be bound to take steps to remedy defects which the Excise Commissioner may consider material. If spirit is found to be of inferior quality, it may be rejected and destroyed or otherwise dealt with under the orders of the Excise Commissioner. Officer incharge of the Warehouse is empowered

to stop, pending the orders of the Excise Commissioner, the issue of spirit which he considers bad and is required to send samples of such spirit for analysis without delay.

4. The contractor is permitted to use the present Government Distillery site, as well as six storage vats belonging to Government, free of rent for the period of his contract and also the temporary buildings on the said premises owned by the present outgoing contractors which he himself will arrange to take over. The bonded warehouse building at which the sale of spirit under this license is permitted, will be provided and maintained at the cost of the contractor. All fittings or articles connected with the supply, storage, gauging, handling and issue of spirit, including vats, casks, tanks, pumps, pipes, cocks, locks, gauging rods, measures, vessels, etc., shall be provided by the contractor. The contractor is responsible for the safe custody of the stock of spirit.

5. (i) The minimum stock of spirit of two months' supply shall always be maintained by the contractor at the warehouse.

(ii) Whenever the stock falls short of this minimum and the contractor fails to replenish it at once, the Superintendent of Excise may procure spirit from elsewhere, the cost of which shall be recoverable from the contractor in the manner provided in condition 9 *infra*.

6. (i) The contractor shall be bound to supply spirit to all licensees of Baluchistan in bottles of standard sizes of one-sixth, one-twelfth and one-twenty fourth of an Imperial gallon, properly and securely corcked, labelled and capsuled, according to the specifications prescribed by the Excise Commissioner from time to time.

(ii) The bottling shall be done at the warehouse and the contractor shall be bound to supply suitable machines and the necessary labour required for carrying out the operations.

(iii) The contractor shall be bound to observe all directions given by the Excise Commissioner from time to time for carrying out the bottling operations in a sanitary, neat and proper manner.

(iv) All the bottling operations shall be conducted in the presence and under the immediate supervision of the Excise Inspector in charge of the Warehouse.

7. At the close of the contract, should the license be not renewed, spirit in warehouse upto e month's supply of the contract area will be taken over by the incoming contractor at his contract rate. Should the Excise Commissioner so order the contractor may be required to make over spirit to the extent of two months' supply of the contract area to the new contractor at the contract rate, provided that no less than four months notice shall be given for any such order.

8. Licensed vendors shall be entitled to have spirit issued to them with all reasonable expedition in such quantities, subject to a reasonable limit, at the prescribed strength, as they require, on proof of payment into a Government treasury of the excise duty at the rate from time to time prescribed and of payment to the contractor the supply price at the rate agreed to in this contract.

9. Failure to supply spirit as specified in condition 8 *supra* within what the Superintendent of Exice considers a reasonable time shall entail a penalty, at the discretion of the Excise Commissioner, not exceeding Rs. 5 per proof gallon of spirit demanded but not supplied. In such cases the spirit may be purchased by the Superintendent of Excise elsewhere at his discretion and at the risk of the contractor. The penalty, the cost of the spirit purchased and any loss to Government that may result may be deducted from the amount, if any, due to the contractor or from his deposit, provided that if failure to supply is proved to the satisfaction of the Excise Commissioner to be due to causes beyond the contractor's control, and if immediate notice of the said cause has been given to the Excise Commissioner and Superintendent of Excise, the penalty of Rs. 5 per proof gallon of spirit in this condition will not be exacted from the contractor.

10. The contractor shall be at liberty to commence storing at the Warehouse before the 1st day of April 1939, but no spirit so stored shall be sold or be allowed to pass out of the custody of himself or his servants before that date, unless otherwise permitted by the Excise Commissioner.

11. Unless the Excise Commissioner shall give special order to the contrary, all spirit shall be stored in vats, casks and sealed bottles.

12. (*a*) Government shall have absolute discretion as regards the determination from time to time of the rate of duty to be levied on spirit issued from the Warehouse. Alterations in the rates of duty may take place at any time within the period of this contract. No spirit shall be issued from the Warehouse for sale except after proof of payment of the Government duty on it according to the rate sanctioned for the place of consumption.

(*b*) Government reserve to themselves the right to reduce or increase the number of shops for the vend of country spirit, without making themselves liable for any loss of business which may be caused to the contractor in consequence.

13. The contractor shall be bound by all duly sanctioned rules relating to the excise administration which are applicable to him.

14. The contractor is prohibited from holding any interest in the retail vend of country spirit unless specially exempted from the operation of this clause by the Excise Commissioner.

15. In all matters not expressly provided for herein the contractor shall accept the ruling of the Excise Commissioner subject to an appeal to the Chief Commissioner.

16. As security for the due fulfilment of his contract the contractor shall deposit with the Excise Commissioner Rs. 3,000—(Three thousand only). The deposit shall be in Government promissory notes of equivalent market value or in such other form as the Excise Commissioner may approve.

17. Infraction of any of the conditions of the license either by the contractor, or by any person in his employ, may entail on him at the discretion of the Excise Commissioner (*a*) a penalty upto Rs. 50, or (*b*) with the sanction of the

Chief Commissioner forfeiture of deposits and the cancellation of license and disposal of the privilege at the contractor's risk.

18. At the expiration of the contract for the supply of country spirit in connection with which this license is granted the licensee shall be entitled to demand that all sanctioned buildings, plant, stock of bottles, corks, capsules and labels used at the Bonded Warehouse in connection with the storage of country spirit be bought from him by the succeeding contractor at a valuation made either by mutual settlement or under the orders of the Excise Commissioner:—

Provided—

(1) that if the licensee wishes to claim the benefits of this clause in respect of buildings or plant he shall give notice of his intention six months before the expiry of his contract, in which case he shall have to remove the material of his buildings within one month from the date of expiry of his contract.

No. 814.—The following reports by the Government Actuary at the India Office on the valuation of the 'Transferred Sections' of the Indian Military Service Family Pension Fund and the Indian Military Widows' and Orphans' Fund, respectively, are published for general information.

A.G.6253/39.

Indian Military Service Family Pension Fund.

Transferred Fund.

THE MOST HON. THE MARQUESS OF ZETLAND,
P.C., G.C.S.I., G.C.I.E.,
SECRETARY OF STATE FOR INDIA,
INDIA OFFICE,
WHITEHALL, S.W.1.

MY LORD MARQUESS,

1. In my report on the valuation as at 31st March 1937, of the Indian Military Service Family Pension Fund I showed that the amount of the Fund applicable to those subscribers and beneficiaries who elected to transfer their interests to the Commissioners in Great Britain was £4,769,209 16*s.* 4*d.*

2. The share of the Fund apportioned to the transferred section was arrived at on the basis of a valuation of the whole Fund on the assumptions that (*a*) the Fund would continue under the old conditions under which the balance would remain in the hands of the Government of India and be credited with interest at the rate of 4 per cent. per annum, and (*b*) the surplus shown on that valuation would be fully distributed by way of hypothetical increases in the permanent scale of pensions. It was thus secured that each section of the membership was credited with an appropriate share of the total funds according to age and marital condition. The total amount of the Transferred Fund represented the aggregate of the shares of the several groups in the various categories which were separately dealt with in the calculations.

3. It now remains to determine the rates of benefit which the Transferred Fund will be in a position to support with due regard to the apportioned share of each group in the total.

4. The effect, in this connexion, of the rate of interest earned by the Funds has been discussed in previous reports, where it was pointed out that a change in the rate affects the various groups to a different extent according to the status and ages of the persons concerned. For example, the effect of a reduction of interest on the value of an aged widow's pension is trifling compared with the corresponding effect in the case of a young subscriber who normally will contribute for a long period and to whom the Fund is under commitments, the fulfilment of which may not begin for many years and which being of the annuity type may not be completed until a further lengthy period has elapsed. A provisional estimate was made in 1936 (based on the 1934 valuation) of the probable reductions which would have to be made in the benefits if the rate of interest were 3 per cent. only, a rate which appeared appropriate in view of the high levels at which the market prices of stocks and securities were standing at the time.

5. It is to be noted that the rate to be assumed for present purposes must necessarily be influenced almost entirely by the yield on the existing investments the whole of which have been purchased in the last 18 months. The membership of the Fund will not be recruited by new entrants, and the receipts from subscriptions and donations will therefore diminish through deaths of subscribers and their retirement from the active list, whereas the annual charge for pensions will increase for many years.

The amount of the fund may be expected to increase for a few years after which it will be necessary to realise securities from time to time in order to meet the excess of the outgo over the income. In this connexion I observe that regard has been had to the necessity for the avoidance of capital losses on early realisation by the purchase of suitable investments. Further investments to be made while the fund is growing will be relatively small, and the yield on the existing securities will therefore have a predominant effect on the rate obtained by the Fund throughout its future existence. In the period which has elapsed since the provisional estimates were made market values have fallen and rates of interest obtainable have in consequence increased, with the result that it is now clear that a higher rate than 3 per cent. may safely be assumed.

6. I have been supplied with a list of securities purchased by the Commissioners on behalf of the Fund, amounting in value to practically the whole of the Transferred Fund. In consideration of the yield given by these investments and of the fact that, under Section 273 (5) of the Government of India Act, 1935, the interest or dividends will be exempt from income-tax, I have come to the conclusion, after consultation, that a rate of $3\frac{1}{2}$ per cent. may properly be assumed for the purpose of the present investigation. The calculations have, accordingly, been made at that rate. As regards the other elements (mortality, etc.), the basis of calculation is precisely the same as that adopted in the apportionment of the Fund as described in my report dated 10th February 1939.

7. It will be appreciated that it would be inadvisable to fix the benefits at such a level that they would be the full equivalent of the total assets without any reserve for contingencies. In the Fund as hitherto constituted it has been the custom to keep in reserve for this purpose some portion of the surplus revealed at the periodical valuations. There have, moreover, been the further safeguards that hitherto the Fund has not been subject to depreciation of market values of investments and that part of the pensions paid has been specifically declared to be on a temporary basis and subject to withdrawal.

8. The scope for adverse contingencies in the Transferred Fund will be increased, since not only have the numbers been reduced, but the Fund itself, being invested in marketable securities, may suffer from depreciation and will be liable to fluctuations in value to which the amount at credit of the old Fund, deposited in the hands of the Government of India, with the capital guaranteed, was not susceptible. It is, therefore, the more necessary to retain some portion of the total Fund as a special reserve. On this point, I came to the conclusion that if the rates of benefit were fixed as far as possible at convenient round figures slightly below the full rates which could in theory be granted, the margin thus retained, although small in relation to the total liabilities, would provide a reasonable safeguard. Such a plan has the further advantage of avoiding an inconveniently extensive range in the rates of benefit granted to individuals, at the same time preserving a substantial degree of equity provided that the differences in pension are not great.

9. I have, therefore, ascertained for each group of members the rate of benefit that can now be given, with due regard to their respective shares of the Fund as shown by the detailed calculations made in arriving at the apportionment. The results are shown in the tables given in the Appendix. As hitherto, the revised scales have been arrived at, for convenience of calculation, by expressing them in terms of increases in the original basic scales. The basic pensions to widows were £40 should the subscriber die while in Class V, increasing by £30 on the survival of the subscriber and attainment of each successive higher Class to the maximum of £160 to the widow of a subscriber who had reached Class I. The pensions at present payable provisionally correspond to a general increase of 40 per cent. in all basic pensions, that is, totals to widows of £56 in Class V, rising by £42 for each higher Class to £224 in Class I. The basic scales of pensions to children did not

vary with the Class of the subscriber and were of the following amounts, depending upon the age of the orphan :—

	£
Sons and daughters : under age 6..	10
age 6 till age 12	20
age 12 till age 21	30
Daughters (and incapacitated sons) from age 21	45

Those pensions have also been increased provisionally by 40 per cent., and the amounts at present payable range from £14 to £63.

10. It will be seen from the tables that the revised increases range from 37½ per cent. in the case of the prospective pensions to the families of the younger existing subscribers to 50 per cent. in the case of the oldest incumbent pensioners, over the age of 70, and proceed by stages of 2½ per cent. of the basic pensions, that is, differences varying from £1 in Class V to £4 in Class I.

The increase of 37½ per cent. in the pensions to future widows represents total pensions of £55 in Class V, rising by £41 5*s*. for each higher Class up to a total of £220 in Class I. The increase of 50 per cent. in the case of the existing incumbent widows over the age of 70 represents total pensions of £60 in Class V, rising by £45 for each higher Class up to a total of £240 in Class I.

11. The revised scales of benefit to present and future children of subscribers are to be arrived at in a similar manner by reference to the original basic rates and to the percentage increases shown in column (5) of the table (Part A). The increase in the pensions of incumbent sons of deceased subscribers is 42½ per cent. (Part B of the table) corresponding to the following amounts :—

Under age 6	£14	5*s*.	0*d*.
Age 6 till age 12	£28	10*s*.	0*d*.
Age 12 till age 21	£42	15*s*.	0*d*.

The same scale applies to incumbent daughters under 21, who, on reaching that age, will have their pensions increased to £64 2*s*. 6*d*. The last-mentioned amount applies also to all existing incumbent daughters aged between 21 and 35 on 31st March 1937. Daughters then aged over 35 receive higher increases at the same percentage rates as the widows, and in the case of daughters over age 70 on 31st March 1937, the increase of 50 per cent. represents a total pension of £67 10*s*.

12. The valuation at 3½ per cent. interest of the assets and liabilities of the Fund as at 31st March 1937, on the basis of the revised scales of benefit indicated in the appendix, is as follows :

Present value of :—	
Immediate pensions*	2,355,000
Contingent pensions	2,882,000
All pensions	5,237,000
Passage Money Insurance Contracts	12,000
Total liabilities	5,249,000
Present value of future contributions and donations	623,000
Net liability	4,626,000
Capital	4,769,210
Balance (surplus)	143,210

The scales of pension under the revised scheme are thus such as to absorb £4,626,000, leaving £143,210 to be held in reserve in the Fund as a provision against adverse contingencies. This is about 2½ per cent. of the value of the immediate

* Including allowance for the revival on re-widowhood of the suspended pensions of remarried widows.

Indian Military Widows' and Orphans' Fund

Transferred Fund.

THE MOST HON. THE MARQUESS OF ZETLAND,
P.C., G.C.S.I., G.C.I.E.,
SECRETARY OF STATE FOR INDIA,
INDIA OFFICE,
WHITEHALL, S.W.1.

MY LORD MARQUESS,

1. In my report on the valuation as at 31st March, 1937, of the Indian Military Widows' and Orphans' Fund I showed that the amount of the Fund applicable to those subscribers and beneficiaries who elected to transfer their interests to the Commissioners in Great Britain was £631,458 8*s*. 8*d*.

2. The share of the Fund apportioned to the transferred section was arrived at on the basis of a valuation of the whole Fund on the assumptions that (*a*) the Fund would continue under the old conditions under which the balance would remain in the hands of the Government of India and be credited with interest at the rate of 4 per cent. per annum, and (*b*) the surplus shown on that valuation would be fully distributed by way of hypothetical increases in the permanent scale of pensions. It was thus secured that each section of the membership was credited with an appropriate share of the total funds according to age and marital condition. The total amount of the Transferred Fund represented the aggregate of the shares of the several groups in the various categories which were separately dealt with in the calculations.

3. It now remains to determine the rates of benefit which the Transferred Fund will be in a position to support with due regard to the apportioned share of each group in the total.

4. The effect, in this connexion, of the rate of interest earned by the Funds has been discussed in previous reports, where it was pointed out that a change in the rate affects the various groups to a different extent according to the status and ages of the persons concerned. For example, the effect of a reduction of interest on the value of an aged widow's pension is trifling compared with the corresponding effect in the case of a young subscriber who normally will contribute for a long period and to whom the Fund is under commitments, the fulfilment of which may not begin for many years and which being of the annuity type may not be completed until a further lengthy period has elapsed. A provisional estimate was made in 1936 (based on the 1934 valuation) of the probable reductions which would have to be made in the benefits if the rate of interest were 3 per cent. only, a rate which appeared appropriate in view of the high levels at which the market prices of stocks and securities were standing at the time.

5. It is to be noted that the rate to be assumed for present purposes must necessarily be influenced to a very large extent by the yield on the existing investments, the whole of which have been purchased in the last 18 months. The amount of the Fund will grow steadily for many years and new investments will have to be made from time to time so long as the income exceeds the outgo. Although these new investments will be substantial in amount, the yield on the existing securities will have a predominant effect on the rate obtained by the Fund as a whole for some years to come. In the period which has elapsed since the provisional estimates were made market values have fallen and rates of interest obtainable have, in consequence, increased, with the result that it is now clear that a higher rate than 3 per cent. may safely be assumed.

6. I have been supplied with a list of the securities purchased by the Commissioners on behalf of the Fund. The value of these securities is actually greater than the amount of the Fund as at 31st March, 1937, owing to the fact that the income since that date has been handed over to the Commissioners for investment

and has been substantially greater than the pension payments made. In consideration of the yield given by these investments and of the fact that, under Section 273 (5) of the Government of India Act, 1935, the interest or dividends will be exempt from income-tax, I have come to the conclusion, after consultation, that a rate of 3½ per cent. may properly be assumed for the purpose of the present investigation. The calculations have, accordingly, been made at that rate. As regards the other elements (mortality, etc.) the basis of calculation is precisely the same as that adopted in the apportionment of the Fund as described in my report dated 10th February, 1939.

7. It will be appreciated that it would be inadvisable to fix the benefits at such a level that they would be the full equivalent of the total assets without any reserve for contingencies. In the Fund as hitherto constituted it has been the custom to keep in reserve for this purpose some portion of the surplus revealed at the periodical valuations. There have, moreover, been the further safeguards that hitherto the Fund has not been subject to depreciation of market values of investments and that part of the pensions paid has been specifically declared to be on a temporary basis and subject to withdrawal.

8. The scope for adverse contingencies in the Transferred Fund will be increased, since not only have the numbers been reduced, but the Fund itself, being invested in marketable securities, may suffer from depreciation and will be liable to fluctuations in value to which the amount at credit of the old Fund, deposited in the hands of the Government of India, with the capital guaranteed, was not susceptible. It is, therefore, the more necessary to retain some portion of the total Fund as a special reserve. On the other hand, the new series of valuation tables compiled for the purposes of the present investigations do not give full effect, particularly at the younger ages, to the lightening of the liabilities which the recent experience of the Fund as a whole up to 31st March, 1937, appeared to indicate. Bearing this in mind, I came to the conclusion that if the rates of benefit were fixed as far as possible at convenient round figures slightly below the full rates which could in theory be granted, the total margin thus retained, although small in relation to the total liabilities, as shown by the valuation, would provide a reasonable safeguard. Such a plan has the further advantage of avoiding an inconveniently extensive range in the rates of benefit granted to individuals, at the same time preserving a substantial degree of equity provided that the differences in pension are not great.

9. I have, therefore, ascertained for each group of members the rate of benefit that can now be given, with due regard to their respective shares of the Fund as shown by the detailed calculations made in arriving at the apportionment. The results are shown in the tables given in the Appendix. As hitherto, the revised scales have been arrived at, for convenience of calculation, by expressing them in terms of increases in the original basic scales: The basic pensions to widows were £40 should the subscriber die while in class V, increasing by £30 on the survival of the subscriber and attainment of each successive higher class to the maximum of £160 to the widow of a subscriber who had reached class I. The pensions at present payable provisionally to widows correspond to a general increase of 15 per cent. in all basic pensions, that is, totals of £46 in class V, rising by £34 10*s*. for each higher class to £184 in class I. The basic scales of pension to children did not vary with the class of the subscriber and were of the following amounts, depending upon the age of the orphan

Sons and daughters : Under age 6

Age 6 till age 12

Age 12 till age 21

Daughters (and incapacitated sons) from age 21

These pensions have been increased provisionally by 25 per cent. in the case of sons and 12½ per cent. in the case of daughters, and the amounts at present payable range from £11 5*s*. to £50 12*s*. 6*d*.

10. If the present scales of contributions and donations be retained, the benefits of future entrants to the Fund may be represented by an addition of

27½ per cent. to the basic scales, that is totals to widows of £51 in class V, rising by £38 5s. for each higher class to £204 in class I. With the same percentage addition, the pensions to orphans become :—

	£	s.	d.
Sons and daughters—			
Under age 6	12	15	0
Age 6 till age 12	25	10	0
Age 12 till age 21	38	5	0
Daughters (and incapacitated sons) from age 21 ..	57	7	6

These rates of benefit have been arrived at on the assumption that the funds to be accumulated for the provision of the pensions will be suitably invested to yield a rate of interest of 3½ per cent. The question whether any increase in these pensions may in due course be found to be justifiable will depend upon the future experience, but when taking a long view of the position in this connexion, account must, under the new conditions, be taken of the fact that the funds hereafter will be invested in marketable securities, with the resultant liability to fluctuation in the value of the capital.

11. The benefits of existing members of the Fund at the younger ages who entered in recent years can reasonably be fixed on the same level as that for new entrants. It will be seen from the tables that the revised increases range from 27½ per cent. in the case of the prospective pensions to the families of the recent entrants to 40 per cent. in the case of the oldest incumbent widow, and proceed by stages of 2½ per cent. of the basic pensions, that is, differences varying from £1 in class V to £4 in class I. The maximum increase of 40 per cent. represents total pensions to widows of £56 in class V, £98 in class IV, and £140 in class III. There are no existing widows in the higher classes who will be affected by this rate of increase.

12. The revised scales of benefit to present and future children of subscribers are to be arrived at in a similar manner by reference to the original basic rates and to the percentage increases shown in column (5) of the table (Part A). The increase in the pensions of incumbent sons and daughters of deceased subscribers is 35 per cent. (Part B of the table), corresponding to the following amounts :—

	£	s.
Under age 6	13	10
Age 6 till age 12	27	0
Age 12 till age 21	40	10
Daughters, over age 21	60	15

13. The valuation at 3½ per cent. interest of the assets and liabilities of the Fund as at 31st March, 1937, on the basis of the revised scales of benefit indicated in the Appendix, is as follows :—

Present value of :—

	£
Immediate pensions*	78,800
Contingent pensions	2,143,700
All pensions	2,222,500
Refunds on decease of bachelors and widowers without children eligible for pensions ..	22,100
Passage money insurance contracts	700
Total liabilities ..	2,245,300
Present value of future contributions and donations	1,639,600
Net liability	605,700
Capital	631,458
Balance (surplus) ..	25,758

*Including allowance for the revival on re-widowhood of the suspended pensions of remarried widows.

The scales of pension under the revised scheme are thus such as to absorb £605,700, leaving the relatively small amount of £25,758, or less than 1¼ per cent. of the total liabilities, to be held in reserve in the Fund as a specific provision against adverse contingencies.

14. It has been assumed in the calculations that the revised scheme would come into operation after the pensions due under the old conditions on 1st April, 1937, had been paid. Pensions paid since that date on the provisional basis have been at lower rates, and arrears of the differences may accordingly be paid to the pensioners concerned.

I am, my Lord Marquess,
Your obedient Servant,

PART I.—*General.*

1. The selection of candidates for appointment will be made on the recommendation of the Federal Public Service Commission—

Provided always that, if the number of suitable candidates recommended by the Commission on the result of an annual selection is insufficient to fill the number of vacancies then existing, the Governor General in Council may fill the remaining vacancies by nominating recruits with such qualifications as he may deem adequate.

PART II.—*Qualifications of candidates and methods of selection.*

2. A candidate must be a male and either—

(*i*) A British subject of Indian domicile whose father (if alive) is a British subject, or a subject of a State in India, or (if dead) was at the time of his death either a British subject or a subject of a State in India, or a person in the permanent service of the Crown, or a person who had retired from that service ; or

(*ii*) a ruler or a subject of a State in India.

Provided that in the case of a male British subject the requirements of this rule (other than that concerning domicile) may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship, and that the candidate is so closely connected by ancestry or upbringing with His Majesty's dominions as to justify special treatment.

3. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance
